I should have released this first, but i wanted to get a general FAQ out to teach people

Thanks to everyone who e-mailed me with questions, feedback and some tips of their
own for this game. You all have been a great help ( You know who you are! )

And to everyone who mailed me about a translation FAQ, sorry it took so long to write
such a short guide. Things have been hectic lately, and while i try to answer every e-mail
i receive, i havent had much time to get on the computer. thanks for your patience!
