INTRODUCTION

Howdy! My name is Dalton Of Zeal, a soon to be FAQ writer!

Valkyrie Profile will live on in my heart as one of the most beautiful RPGS.. no, most beautiful works of art ever created. Every aspect; from the moving and intelligent story, to the awe-inspiring graphics and artwork, to the extremely solid and adrenaline-pumping battle system will never cease to amaze me and entertain me. Better than 11 Final Fantasies, without question!

But enough about that.

Valkyrie Profile is also noteworthy for its excellent and lengthy collection of voice samples, both inside and out of battle. Voice samples heard in battle are added to a Voice Collection option accessible from the title screen, available for listening any time. The following FAQ is a simple list of all of the battle voice samples in the game, as well as how to come across them.

Q: How do I access Voice Collection?

A: From the Title Screen, select Sound Mode, then Voice Collection. The game will load all of the voice samples from the saved games on your Memory Cards.

You'll then see a screen displaying 35 "cards" in a 7 by 5 grid. Each one corresponds to a different character's voice collection. Once you've earned one battle voice sample for a character, the corresponding card will flip over and you'll be able to access their collection.

Q: Okay, I have one Valkyrie voice sample.. but what's with the blue and white boxes?

A: When you view one of these "cards", a number of "boxes" equal to the total voice samples of that character will appear. Ones that are blue are the ones you have obtained; white ones you have not obtained. They look something like this.

```
[] [] [] [] [] [] [] [] [] [] [] []
[] [] [] [] [] [] [] [] [] [] [] []
[] [] [] [] [] [] [] [] [] [] [] []
```

Simply select a blue box and press X to listen to that voice sample.

Q: How do I obtain the voices?

A: One good way is to take a particular unique team throughout the game and expose them to a wide variety of situations and circumstances, while swapping characters every now and then to get a few samples for them, too. Teach them as many spells as you can, have them use them, try all of their attacks, intentionally let them die even! You probably won't be able to fit a full Voice Collection onto one single save file (I've got 12 blocks dedicated to Voice Collection myself), but then you can simply fill in the blanks with another save file.

Keep the following in mind;

- There are multiple voice samples for the beginning of battle for each character; which sample is said depends on how far you outclass the enemy in strength.
- There are voice samples for PWS (Purify Weird Soul) moves, as well as multiple PWS result samples depending on whether you killed the enemy or not.
- Attacks, being hit, and counterattacking all have multiple voice samples, too.
- There are multiple voice samples for each character that are played after winning a battle.
- Each character has a few "death" voice samples too.

- Mages have a voice sample for EVERY SINGLE USABLE SPELL in the game, including Great Magic such as Calamity Blast, Meteor Swarm, etc.
- There are certain voice samples for certain characters played on one-time occurrences.

Q: What about bosses? How in holy hell do I get Surt and Loki voice samples?

A: There are stronger versions of the final bosses that dwell in the final floors of the hidden dungeon "Seraphic Gate". These bosses have all of the voice samples for both Loki and Surt.

Q: How do I use this FAQ?

A: Well, I've listed the voice collections in the order they appear on the screen, going across. Just find the one you're looking for and you'll see something like this:

Lenneth Valkyrie:

Voiced by: Megan Hollingshead

Personal Thoughts: Valkyrie has the voice of a strong, firenze, yet feminine
woman. Note the word "woman"; Valkyrie sounds nothing like
a little girl. Her voice is beautiful and always a
pleasure to hear.

Freya:

Personal Thoughts: Freya's voice was also done well. She has an aura of supremacy to her voice, which suits her well seeing as that she IS that powerful. One of Veronica's non-irritating roles.

Voice Actor Info:

This is perhaps Addie's most unique in-game role in VP. Believe it or not, this is the same voice actor who did Lawfer and Lezard Valeth's voices. Addie is also very well known as his role as Meowth from Pokemon. Also, he has done the voices of Lt. Surge and Bill from Pokemon, as well as Joey Wheeler from Yu-Gi-Oh! Funny how Addie can have a tough guy sounding voice, yet also be able to perform a higher pitched madman voice like Lezard, isn't it?

Jelanda:

Voiced by: Rachael Lillis

Personal Thoughts: VERY cute voice. When she's angry or annoyed, her royal tone shows, and you get the feeling that you're dealing with a peeved princess. She sounds much like the English dub of Sailor Moon, I think.

Voice Actress Info:

Fans of Pokemon will instantly recognize the voice of Rachael Lillis. She voices Jessie and Misty, two of the most popular female characters in the series, as well as some side-roles as Pokemon themselves. In VP, she is the voice of Jelanda, Mystina and Lyseria. Here are some more of her roles outside of the game:

Tama and Friends (2001) - the voice of Bengbu
Boogiepop Phantom (2000) - Manaka Kisaragi, Nagi Kirima
Gokudo (1999) - Mora (english dub)
Shamanic Princess (1997) - Mimi
Revolutionary Girl Utena - Utena Tenjou

Belenus:

Voiced by: Ed Paul

Personal Thoughts: Belenus also speaks with an unmistakeable English accent. Sometimes he sounds as if he's too good for battle, however. Being a nobleman, he obviously speaks with a lot of class, but I can't help but think he has better things to do. Listen to how he says his first sample.. he sounds rather bored!

Voice Actor Info:

Ed Paul is an enigmatic one. Aside from a few diverse roles in Valkyrie Profile (Gandar, Loki, Belenus), I know nothing about him. If you have any information you'd like to add, please email me!

Llewelyn:

Voiced by: Tara Jayne

Personal Thoughts: Well, Llewelyn is certainly a scared young man who has no place on the battlefield, and his voice samples drive that point home. His voice sounds tired, a little whiny, but at times (during his PWS) he gets a little more into it.

Kashell:

Janus:

Voiced by: Scottie Ray

Personal Thoughts: For a character so strangely silent in story, he's quite the motormouth in battle! Janus has an anti-social, mean sounding voice, but it's a well done one, and he has every reason to sound that way. Few of his samples are of him yelling.

Nanami:

Voiced by: Tara Jayne

Personal Thoughts: A very cute voice, but doesn't quite suit Nanami. I was expecting something a little more Asian-esque, rather than just a cute little girl voice. Still, it's a well done one, with some interesting samples about Japanese fortune telling (I think), even if the voice is a little quiet at times.

Yumei:

Voiced by: Tara Jayne

Personal Thoughts: Yumei has a beautiful backstory about dreams and having faith in what you believe in; but it would appear that little to no effort has gone into creating a memorable voice collection for her. She sounds somewhat unenthusiastic and hopeless, and her voice just didn't really touch me in any way. Sorry, Yumei..

Lyseria:

Voiced by: Rachael Lillis

Personal Thoughts: Sounding like a depressed Sailor Moon, Lyseria gets my vote for least-impressive voice collection in VP. It's not that it doesn't suit the part.. it's just that this has been done before.. and with the mass amount of female mages in this game, Lyseria is one of those who quickly fell into obscurity and was never used on my save file.

Here are some more of her roles outside of the game:

Tama and Friends (2001) - the voice of Bengbu
Boogiepop Phantom (2000) - Manaka Kisaragi, Nagi Kirima
Gokudo (1999) - Mora (english dub)
Shamanic Princess (1997) - Mimi
Revolutionary Girl Utena - Utena Tenjou

Badrach:

Personal Thoughts: Well suited for the character, that's for sure. I simply love Badrach's voice! Gruff, casual, and boorish; but great for a barrel of laughs! It's actually quite refreshing to see and hear a hero who looks like a traditional Working Designs "Kyle-like" character!

Grey:

Lorenta:

Voiced by: Megan Hollingshead

Personal Thoughts: Very refined and cultured Lorenta is. She sounds pretty snobby at times, as well. Not a bad collection, but with a multitude of other mages to choose from, it's all down to favourite voice samples. And do you REALLY want to hear the voice of a snobby rich woman every time you cast a spell? 8P

Shiho:

Personal Thoughts: Strange.. some of her samples sound monotone.. almost like a goth girl type voice. Other times, she's like a more enthusiastic Yumei. Seeing that she's a song maiden, I would have loved to hear her sing.
"Fiiiiiiire Laaaaaaaaaaaaance!"

Jayle:

Voiced by: Veronica Taylor

Personal Thoughts: Jayle was another one of those characters who really didn't have an effect on me. Her voice is a little like Freya and Aelia, but a lot more like a young woman than the more mature feel of Freya and Aelia. Jayle has a little too much sugar in her system; her battle pose confirms that. If I hear her say "Eternal Raid" one more time... *shudders*

Gandar:

Voiced by: Ed Paul

Personal Thoughts: Gandar is perhaps my favourite character when it comes to voice samples; they fit his ambitious and determined nature. Gandar truly wants to destroy the gods, and when he shouts out a great spell, you can feel the enemy's fear. One of the greatest voice collections EVER. You've got to love his 4th sample.. greatest insult ever!

Lucian:

Voiced by: Eric Stuart

Personal Thoughts: Sounds identical to Brock from Pokemon, but rather than silly and woman-obsessed, here we have a poor soul who sounds like he lives with regret. Even his taunts sound as if he is tortured.. poor guy. Very good collection for him, but you can't help but feel sorry for poor Lucian.

Lezard Valeth:

Voiced by: Addie Blaustien

Personal Thoughts: Words cannot do justice to describe how well Lezard Valeth is voiced. Every one of his samples is absolutely insane; perfectly fitting his character. I'd say tied with Gandar for best voice collection in the game. His quotes are simple to die for. "They one should not speak unkindly of the dead, so I say "Nice Try!". 8P

Voice Actor Info:

Addie (Adam) Blaustien is the voice actor who did Lawfer and Lezard Valeth's voices. Addie is also very well known as his role as Meowth from Pokemon.

Also, he has done the voices of Lt. Surge from Pokemon, as well as Joey Wheeler from Yu-Gi-Oh! Funny how Addie can have a tough guy sounding voice, yet also be able to perform a higher pitched madman voice like Lezard, isn't it?

Brahms:

Iseria Queen:

Voiced by: Kaysie Rogers

Personal Thoughts: I have mixed feelings about this one. I don't HATE the voice samples, but a lot of them sound as if Iseria Queen has no teeth. She sounds like one of those stereotypical witches with green faces you see in Halloween cartoons that go "Eeeehheehheehheehheehheeh!" Think Wicked Witch of The West, and you'll get a good idea of what Iseria sounds like.

Voice Collection:

[1][2][3][4][5][6][7][8][9][10]
[11][12][13][14][15][16][17]

- 1 and 2 are played when Iseria does normal attacks.
- 3-5 are played when Iseria Queen does Empress Massacre, her PWS move.
- 6 plays when Iseria transforms halfway into the battle.
- 7-9 play when you Iseria Queen takes a hit.
- 10 plays when Iseria Queen is killed.
- 11 is Iseria Queen's battle introduction message.
- 12-15 are played when Iseria Queen casts the respective spells.
- 16-17 are played when Iseria uses her Great Magic spell (happens every 4 turns, unless she is near death, in which she uses it almost endlessly).

1: Tah!
2: Hah!
3: Perish!
4: Prepare thyself!
5: Die!
6: Now I shall end this!
7: Ahhh!
8: Ah!
9: You little!
10: What do you desire after you've reached the ultimate rank? Heh, it's none of my business. I'm sure we'll be.. able to..
11: You'll find me very different from Gabriel Celeste! I'll show you what true despair is. Resign yourself to your fate!
12: Fire Lance!
13: Fire Storm!
14: Mystic Cross!
15: Sacred Javelin!
16: If ye trust that thy eternal bonds shall be broken, then let my words be as a vengeful blade upon thee!
17: Cosmic Spear!

Voice Actor Info:

Kaysie Rogers plays Iseria Queen in Valkyrie Profile. She also does numerous Pokemon voices as well as the voice of Professor Ivy in the Pokemon series. Her voice is rather silly sounding, in my opinion. 8)

Bloodbane (Also Dragon Tyrant in Seraphic Gate):
